

Patient Clinical Photographic Information Policy April 2022

Patients sending Camphill Medical Practice photographic images, are consenting to us using this photograph for the purposes of your/your child's medical care.

To ensure the images are sent securely, only use the following NHS encrypted email address:

gram.camphillclinical@nhs.scot

The photo will initially be stored in the secure NHS e-mail account.

If deemed clinically necessary, the photo(s) will be uploaded to your electronic medical record and permanently deleted from the secure e-mail account.

Do not send photograph(s) if you feel in any way uncomfortable about doing so. Please make sure you tell us this so that we are not waiting to receive a photo before contacting you. We will then arrange for a Health Professional to contact you in the first instance to discuss your symptoms.

Please note the following:-

- The photo(s) will be used for clinical purposes.
- The photo(s) may be viewed by male or female staff.
- Avoid sending any intimate/sensitive photos (examples include groin, genitals, anus or breasts)

Our privacy policy can be found on our website: www.camphillmedicalpractice.co.uk
